PROFESSIONAL EXPERIENCE

2019–Present

Ameriprise Financial

UI Developer
Minneapolis, MN

Enabling product teams to move faster and ship higher-quality products by bridging the gap between design and development. Specializing in all aspects of design systems and their maintenance, UI development, interaction design, and accessibility.

2017–2019

RESCO

Full Stack Developer
Hudson, WI

Design and development of websites for businesses in the commercial food service industry, using a combination of Ruby on Rails framework, jQuery, HTML, SASS, CSS Grid and Volusion CMS. Building web pages while working closely with the design team. Providing web-based solutions to meet client needs. Framework and technology research. Design and presentation of mobile, tablet, and desktop mockups with Adobe XD.

2015–2017

3M

Web Architecture and Framework Engineer
St. Paul, MN

Developing components used within an IBM content management system, utilizing HTML, jQuery, SASS, and plugin-based logic. Working as part of an Agile team utilizing Dual Track Scrum workflow. Supporting user research through prototyping. Designing, building and testing Design Pattern Libraries as well as writing technical documentation.
